

# Great Employment Opportunity...

- Are you keen to work in an engineering environment?
- Do you have excellent attention to detail?
- Do you have strong mathematical abilities?

**If so, we're keen to invest in YOU ...**

An excellent opportunity to join our Drawing Office and produce the detailed designs for our aircraft hangars, bridges and sports stadia of the future!

Steelwork detailing model combined with a photo of the finished hangar

We have structures in over 140 countries worldwide

Completed Thruxton Hospitality Centre and detail drawings (right)

Join us and learn both structural steel detailing and industrial cladding design and become a key member of the project team.

We offer competitive salary, brilliant training and progression opportunities, 25 days holiday per year, discretionary annual bonus scheme, supportive learning environment.

This role would suit a maths A level finisher or candidate having completed an introductory engineering course.
